

# How to set your Favorites in DirecTV – “Quick Tune”

1. Use the number buttons to go to the channel you want to add to your list of favorites.

2. Press the UP arrow on your remote control

3. This box will appear on your screen

EMPTY	EMPTY	EMPTY
EMPTY	EMPTY	EMPTY
EMPTY	EMPTY	EMPTY

4. Use the directional arrows to move to the box where you want to store the first favorite.

5. Push the GREEN button to save your favorite channel – the logo for that channel will appear in the box. **Note: All PBS channels will show the same logo, but the correct channel number will show in the box below the logo.**

6. Click EXIT

7. To add more channels, start again with step 1. You can add 9 favorite channels – no more.

If you want to remove a channel, you can over-write it with a different favorite channel.

**NOTE:** You must set favorites on each of your TV sets – setting them on one TV set does not make them show up on another TV.

**Setting Favorites does not work on all receivers – especially with older TVs – if it won't work, call 877-598-6636**

# How to watch your Favorites in DirecTV – “Quick Tune”

1. Push the UP arrow on your remote control.

2. This box will appear on your screen.

 229	 281	 269
 312	 230	 22
EMPTY	 280	EMPTY

3. Use the directional arrows to highlight the channel you want to watch.

4. When the channel you want to watch is highlighted, click the Orange “SELECT” button to watch that channel.

**Setting Favorites does not work on all receivers – especially with older TVs – if it won't work, call 877-598-6636.**
